

The NEW MAXITHEN white masterbatch with lower emission helps you to reduce your CO₂ footprint. It's innovative and sustainable yet efficient as the regular white.

The NEW CO₂ reduced MAXITHEN white masterbatch

Let us introduce you to the new CO₂ reduced premium white types MAXITHEN **HP1AA6791** and MAXITHEN **HP1AA6781** within our Sustainable Solutions family!

The new and innovative versions are not only more environmental friendly and sustainable, they also have these benefits:

- CO₂ reduced by 10%
- Produced with photovoltaic generated on the rooftop of Gabriel-Chemie's headquarter in Austria
- Performance, function & application are equal to the well-known MAXITHEN EDP white
- Reduced TiO₂ - less abrasiveness
- FDA & EU approved

The NEW MAXITHEN white masterbatch with lower emission helps you to reduce your CO₂ footprint.
